About Us

Xcell Industries is an emerging brand name in the domain of Polypropylene (PP) Straps, widely used as packaging straps for packaging solutions. Within few years of establishment, the company has steadily increased its footprints in both, domestic and international markets. Based in Ahmedabad, Gujarat (India), the company has become a reliable Manufacturer, Supplier & Exporter of extruded plastic products.

Considering the high demand from several industries, we manufacture virgin, natural and colored, plain and printed box straps for clients mostly in Gujarat, Andhra Pradesh, Tamil Nadu, Madhya Pradesh, Maharashtra and Rajasthan. The company is specialized in creating manual, semi automatic and fully automatic PP box strapping rolls of size ranging from 8 mm to 19 mm and thickness ranging from 0.4 to 0.7 mm.

Our Team

All the employees working at Xcell Industries are dedicated and determined to serve the clients. All these employees work in dedicated departments and are referred according to their designations. Our designers, engineers and technicians are trained to perform the production process and utilize the latest technology. The sales and marketing executives promote the products and generate leads. These personnel also maintain cordial relationship with clients, right from the start of order until it is delivered to them.

Infrastructural Set-Up

In our production plant in Ahmedabad, our production personnel manufactures PP strap using a belt-like material. This material which is extruded from a die is stretched lengthwise at specific volume ratio. These straps generated by following further steps, are highly rigid, have flexible surface and high strength. These straps are then packaged in different roll sizes. These rolls are individually packaged and then into cartons. All these cartons are palletized and shipped to destination.
